## NOVEMBER 2008

### PAIGE BRADY STUDENT OF MONTH

The November Student of the Month is an outstanding Brown County High School Senior, whose favorite subjects are Math and Science. Paige plans to pursue a college degree in Dentistry – specializing in Orthodontic treatments.

Paige is pictured above with her parents, Kim and Brian Brady, and with Cheryl Fox- the teacher who nominated Paige for our Rotary’s recognition. Paige is active in the Philharmonic Youth Orchestra, held a lead role in the school play, and has lettered on in Varsity Track and Field- where she specialized in Pole Vaulting. She is also the Yearbook Editor, and is a member of the French Honor Society, the National Honor Society, and the school’s Academic Team- and still finds time to work at McDonald’s to earn spending money.

President Pryde Bayless, and Dr. Charles Cody honored Paige with a certificate that will be on display in the High School. Her name will also be engraved on the Rotary Student of the Month Plaque.

### NOVEMBER IS FOUNDATION MONTH

Rotarian Dick Routh has been calling on members to present information each

week concerning benevolent activities of the Rotary International Foundation.

We are all reminded of our commitment to help eradicate Polio world-wide, improve literacy, and assist other Rotary clubs to fund water wells in Myanmar- so orphanages have drinkable water, to stay healthy and clean.

### THE GAZEBO FLOWERS

Were kept watered, fresh, and beautiful at the Village Green through the efforts of Rotary. Wanda Jones, Chairperson, recognized Bob Kirlin, Jim Simms, Jane Gore, Donna Ormiston, and Jaydene Laros who each took a day of the week to keep them watered all summer long. Teed Howard was recognized as back up.

The same can be said for MOTHERS CUPBOARD, where every Monday, we serve meals to those in need. The shelves have many empty spaces and donations of a few canned goods from our pantries are necessary. See Al Kosinski.

Colman of Bloomington North, and Melanie Yates of Jeffersonville.

### WEEKLY PROGRAMS

Chairman, Hofstetter has provided us with outstanding people, who have presented informative and interesting weekly programs.

Dan Bright, Developer of the Story Complex gave an interesting presentation, which included facts, figures, neighbor relations, legal challenges- and his ideas for an upscale, stand alone facility that will enhance the village of Story.

Joel Steger, Professor of Health Education at Indiana University, captivated Club members with his

analyses of human performance through the study of human movement- especially as it related to the predictability

of competitive performance in Olympic swimming. He also discussed the controversy surrounding the introduction of the new "fast" swim suit into competition. We all look forward to a reasonable solution to this problem- that will allow all swimmers to have an opportunity to compete on an equal basis.
